My wife and I enrolled our newly adopted dog - Mishka - in Victor's Beginning Dog Training class more than a year ago. Victor has a straight-forward, no-nonsense approach to dealing with dogs, especially when they have a mind of their own! And when you have a large Dobie/Shepherd mix, you have a very independent dog who wants to do things her way!

We were so impressed with what we learned and were able to achieve with the beginning class, that we enrolled Mishka in a private, 5-lesson Intermediate Class with Victor. Over the next several months, Victor was very patient and firm with both Mishka and us, with the result that when we finished on August 1st, we now have a dog that is very responsive to our commands, and does not chase cats and squirrels even when she is off-leash. We could not be any happier with her progress.

I recommend Victor to anyone who is serious about training their dog. It takes effort on everyone's part, it is not easy, but it is so worth it! Thank you Victor!

Thanks.
