

When we got our dog Bella from the rescue, she was 2 years old and had been in the pound and at the rescue center for 7 mos. During that time she had developed a very aggressive attitude toward other dogs and was pretty much uncontrollable out of doors.

Victor's classes taught us how to manage our dog. Now I can take Bella for a walk and know that I will be in control. The difference in my dog is like night and day because with what Victor taught me I now know how to control the dog consistently.

If your dog has obedience issues I would recommend that you take a course from Victor. I'm sure that it will make a difference in how you are able to handle your dog.
