

When we first came to K9-101 dog training, we had a 10 month old Puggle who was totally out of control. Grandma could not walk the dog without being pulled off her feet. After only 2 and 3 sessions our dog Amber showed a marked improvement in her ability to understand, anticipate and follow basic commands (like sit, stay, come, down...). We feel we have a "new dog" and love how behaved she has become due to the classes at K9-101. We highly recommend K9-101 to anyone and their dog!
