

To Any Dog Owner:

My husband and I (and Nelson, the student pooch) can, without reservation, highly recommend the "K9-101" training program for your precious pet. The group classes are fun and the trainer, Victor Rogo and his assistant, Elmer (a beautifully trained Rottweiler) will introduce you and your pet to all the basic commands and movements, as well as providing a great deal of general information to improve your relations with your dog. Victor's K9-101 program ideally suited us, and has made life with a large puppy a joy.

Thanks, Victor!

Arne and Paula Celick
