

I have a male akita - big dog! I adopted him at 3 years old through the Akita Rescue. He is a good dog but, does have his challenges and being a powerful dog I wanted a program that would not only train us both but, also help in bonding our relationship. Prior to Victor's classes, (I have attended 2 beginner and 1 intermediate) - I took my dog to other trainers. The results I accomplished from Victor's training was definitely the most effective. His methods reflect a firm, consistent discipline with positive results. My relationship with my dog is now much more enjoyable because it is based on mutual respect and trust.

I have been extremely happy and satisfied with our training with Victor and plan to take additional classes in the future.
