Victor,

Thank you so much for helping us with Bindi. What a difference we saw in Bindi's behavior after just one week of training! At 6 months, she certainly wasn't too young for obedience training. I'm glad we didn't wait.

It's really amazing that our 8 year old son Aaron was able to be the main trainer for our dog and got such excellent results. You trained Aaron, so he could train Bindi. He did all five sessions and the daily walking and training too, and of course, lots of playing.

Thanks also for helping us tame her "dominant female" attitude. She is a much better family dog now.

Regards,

Kris H.
